Memo: The Same MAGA Republicans Behind January 6th Are Leading The Bogus Impeachment Effort Against President Biden

Three years ago, Donald Trump directed MAGA extremists to attack the U.S. Capitol in a violent attempt to overturn the 2020 election. Ever since, Trump and his MAGA Republican allies have refused to take responsibility for the roles they played in the deadly insurrection and pushing the Big Lie. Even after the bipartisan January 6th Select Committee laid out the truth that Trump engaged in a criminal conspiracy to overturn an election he knew he lost, Republicans never stopped working to overturn the 2020 election. **They [continue to threaten democracy](#) with their baseless impeachment stunts designed solely to hurt the President and finish the job they started by helping Donald Trump return to the White House in 2024.**
